Pipe structure systems EcoShape REXROTH

Your requirement:

- rapid, simple and affordable realisation of shelving, work tables, material and logistics carts in production
- realisation of the slim production philosophy – limitation of waste in production
- flexible pipe structure system, which can be combined with a classic aluminium profile structure system with T-groove
- 100% recyclable materials – ecological and financially economical

Our solution:

- Rexroth pipe structure system for fast construction of shelving, carts and workplaces according to the KAIZEN principle
