## Pipe structure systems EcoShape REXROTH

## Your requirement:

- rapid, simple and affordable realisation of shelving, work tables, material and logistics carts in production
  - realisation of the slim production philosophy limitation of waste in production
- flexible pipe structure system, which can be combined with a classic aluminium profile structure system with T-groove
  - 100% recyclable materials ecological and financially economical

## Our solution:

- Rexroth pipe structure system for fast construction of shelving, carts and workplaces according to the KAIZEN principle
